## PRODUCT HIGHLIGHTS

We understand the challenges of running a busy Laundry: staffing, inventory lists, email marketing and not forgetting providing treatments! Using our laundry software enables you to manage your Item receiving, delivery tracking and Laundry POS – easily.

Boost your Laundry business with powerful and flexible features, employee management, Point-of-sale and automated marketing solutions. Gozzbe make your laundry entirely data driven. Capture customer details, visit dates, service preference, stylist preference, product preference.

Few years back, laundry who wanted to get the data in an extract meaningful information like in the form of reports was a difficult and time-consuming challenge. Gozzbe can provide laundry owners and managers to access laundry activities, records and backend processes, across all laundry locations, from any device with anytime, anywhere. It gives them the information they need to make informed decisions about all aspects of their business operations and also alerts can be set based on predefined triggers. These alerts can notify a manager when inventory is running low and needs to be restocked. Software can work in online mode as well as offline.

# Customer Relationship Management

**Gozzbe can capture and laundry customer contact information, including email and phone numbers, along with their any type of services history. Gozzbe already create a robust database of customer profiles which will help to maintain a good relationship to the customers. The database can serve as the basis for launching targeted promotional campaigns and building loyalty and rewards programs, the results of which can go a long way toward increasing customer loyalty, generating positive word of mouth and ultimately, increasing sales revenue.**
